Rehabilitation and Restoration

We have a workforce specialising in Rehabilitation and Restoration work including: Architects, Engineers, Graduates in Fine Arts, Diploma Holders from the Advanced School of Restoration and Cultural Assets, personnel skilled in stonework, etc.

CONDISA, is a construction company specializing in the Rehabilitation and Restoration of monuments and buildings of historical, artistic and/or unique value around the country, such as: cathedrals, religious buildings, castles, bridges, public buildings and private property.

Technical Staff

For the execution of the works, we have expert staff in specific functions: Architectural engineers specializing in Rehabilitation and Restoration, Architects, Engineers, Graduates in Fine Arts (specializing in Painting, Sculpture and Stone), Diploma holders in Conservation and Restoration of Heritage Property, etc. In addition, CONDISA has personnel specialized in stonework, carpentry, painting, professional decorators and restoration companies who we work with regularly (The Department of Petrology of the School of Mines of Madrid, companies specializing in photogrammetrics, etc.).

Quality

CONDISA holds the IQNET, OHSAS 18001, AENOR ISO 9000, ISO ENVIRONMENTAL MANAGEMENT, PRL quality seals.

Quality, quick response and excellent results are the foundations that permit us to continue growing and recognized nationally.

The expertise and motivation of all our staff allows us to respond quickly and be innovative, adapting to the needs of each job with the maximum guarantee of Commitment, Compliance and Safety.

Activity

Featured Buildings

The Historical and Artistic Heritage is one of the keys of the Culture in a country. Keeping it in top condition is essential to convey its meaning over the centuries.

CONDISA is responsible for the Artistic Rehabilitation and Restoration of this Heritage with the professionals required to ensure the best results.

Teams specializing in different disciplines share their knowledge and collaborate to recreate the spirit that allowed such works to be created in their day.

Within this activity we classify the works in:

- Cathedrals and religious buildings.
- Castles, walls and bridges.
- Civil buildings.
- Private property.

Monuments

CONDISA has extensive experience in the Conservation and Restoration of Monuments being responsible for this work in Madrid for over 15 years.

Rehabilitation

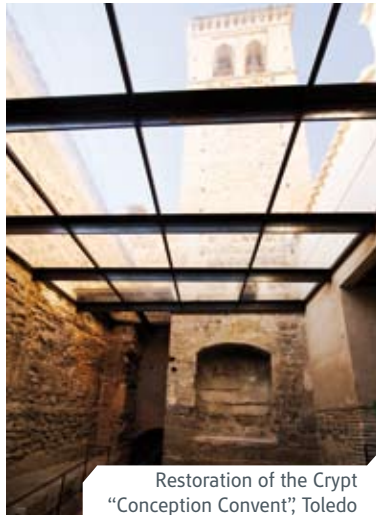

CONDISA has the resources to provide Comprehensive Rehabilitation of Listed Buildings and Spaces that combine in an orderly fashion the activities of Restoration with those of Rehabilitation and installations with the support of the Technical Offices of the Grupo Ortiz.

Building

In the same spirit of service and quality applied to the Restoration and Rehabilitation works, CONDISA conducts Remodelling and Construction work for Unique Projects..
