# Environmental Services

Conditioning of plant screen and landscaping display in C/ Rafael Bergamin, Madrid

Rehabilitation of the "Emir Mohamed I," Park Madrid

The number of projects implemented represents the commitment acquired years ago in terms of protection and conservation of the Environment.

Waste Collection Centre in Alcorcón, Madrid

Retrofitting of the Urban Park "El Olivar" in Sevilla la Nueva, Madrid

Cleaning and Maintenance of Public Gardens and the Area of Saplaya and Patacona in Alboraya, Valencia

Basic infrastructure in the Forest Park “Valdebebas”, Madrid

Park “Los Miradores” in Pozuelo de Alarcón, Madrid

## Works and services Environment

The experience in construction and environmental services, and the work of our multidisciplinary workforce, which has a high percentage of graduates, makes it possible for INDITEC to position itself as one of the best technical options available in the sector.

In 1988 INDITEC was born with the aim of becoming one of the national companies of reference in the Environmental sector.

Today, the amount of projects implemented is proof of the commitment years ago to respect, protection and conservation of the environment.

In this sense noteworthy are the 100 projects undertaken in recent years, of our commitment to providing integral services such as construction, design and maintenance of green spaces (parks and gardens, football pitches, golf courses, developments, etc.), the work done on reforestation, afforestation and looking after the countryside, the provision of services,

street cleaning and waste collection, management of natural spaces or our role in the restoration of rivers and riverbanks.

We are also present in flagship projects, building and maintaining the new “Valdebebas Forest Park” the real new green lung of Madrid or the new green areas and facilities of the Ensanche South in Alcorcón.

The experience in construction and environmental services, and the work of our multidisciplinary staff, which has a high percentage university graduates, enables INDITEC to position itself as one of the best technical options available in the industry.

Execution of Park 4th phase of PERI PT 12-8 in the Colonia de Villaverde Cruce, Madrid

Conservation and maintenance of Municipal Green Zones, Parks, Gardens and Trees in Humanes, Madrid

## Sustained Growth commitment to quality and safety

INDITEC has currently a wide network of offices able to serve almost all the national territory.

INDITEC operates in: Madrid, Castilla La Mancha, Castilla y Leon, Extremadura, Andalusia, Asturias, Cantabria, Galicia, Murcia, Baleares, Aragon and Catalonia.

Our customers are state-wide, regional, provincial, local and private.

As a result of our quality, Environment and health and safety policy, INDITEC holds the **UNE-EN-ISO 9001:2000, UNE-EN-ISO 14001:2004** and OHSAS 18001:2007 certificates.

We also belong and actively participate in associations in the sector such as ASERPUMA Association (Landscape and Environment Restoration Companies), ASEJA (Spanish Association of Gardening Companies) and ASEMFO (National Association of Forest Companies).

## Areas of activity

The main areas where INDITEC operates are:

- **Green areas:** design and implementation of parks and gardens, full maintenance of green areas and trees, creation and maintenance of sports fields and golf courses.
- **Waste:** design, construction and operation of treatment plants, landfills, transfer stations and recycling centres, as well as the provision of street cleaning and waste collection.
- **Rural environment:** nature trails, greenways, land consolidation, rural roads and irrigation.
- **Environmental Equipment:** implementation of recreation areas, nature trails and interpretive nature centres.
- **Forestry:** reforestation, afforestation, silvicultural treatments, actions to prevent and extinguish forest fires and management of protected areas.
- **Hydrology:** channelization works, protection of margins, bioengineering and improving water quality.

Golf Course Renovation in the Manises airport, Valencia

## Green areas

INDITEC understands green areas as a necessary element and essential to the quality of life of citizens.

Green areas have many scenic, ecological, cultural, recreational values, etc. To be enhanced and protected.

In the **design and implementation of parks and gardens**, INDITEC is always committed to sustainability and “eco-efficiency”, considering green spaces such as ecosystems with their own life and interrelated with the urban environment in which they are integrated.

We also work on the **environmental integration of infrastructures**, significantly reducing the environmental impact they generate.

Comprehensive **maintenance projects in green and wooded areas**, in the search for the consumption of resources, recycling of crop residues, incorporation of organic gardening techniques and management through new technologies.

### Featured works and services

- Parks, Gardens, Roadside trees, Ditches and Road conservation, Public service management in Simancas, Valladolid.
- Remodelling of Manises Golf Course, Valencia.
- Landscaping and Irrigation in “La Estación” in Colmenar Viejo, Madrid.
- Execution of Park 4th phase of PERI PT 12-8 in the Colonia de Villaverde Cruce, Madrid
- Gardening in Urbanization “Valdebebas”, Lot 11.2, Madrid.
- Landscaping of the “Los Almendros” park in Humanes, Madrid.
- Renovation of the “Gutierrez Mellado” Park in Meco, Madrid.
- Complementary Actions in Green Areas of the South Ensanche Alcorcón, Madrid.
- Conservation and Maintenance of the Garden Areas of Villajoyosa, Alicante.
- Conservation and Maintenance of Municipal Green Zones, Parks, Gardens and Trees in Humanes, Madrid
- Rehabilitation of the “Emir Mohamed I,” Park Madrid
- Construction of the new “Coimbra” park in Móstoles, Madrid.
- Construction of Public Park “The Vaguada” Simancas, Valladolid.
- Re-modelling of the Right Bank, of the Huerta de Murcia, Sector 3, Murcia.
- Re-fitting of the Urban Park “El Olivar” in Sevilla la Nueva, Madrid
- Cleaning and Maintenance Service of the Public Gardens and the Area of Saplaya and Patacona in Alboraya, Valencia 3
- Landscaping Improvement in the neighbourhood of “Los Olivos” in Mejorada del Campo, Madrid.
- Plantations, Parks, Street Furniture and Irrigation Tertiary Sector 115-A “Espartales North” Alcalá de Henares, Madrid.
- Adequacy of Gardening in various sections of Palma-San Lorenzo Palma axis, Balearics.
- Maintenance of Plant Screening and Landscaping in C/ Rafael Bergamin, Madrid.
- Maintenance of Parks and Gardens in the Municipal Area of Villanueva de la Torre, Guadalajara.
- Landscaping adjustment operations in Carabanchel of the EMT, Madrid.
- Remodelling of the “Antusana”, “Valencia” and “Castilla-La Mancha” Parks in Mostoles, Madrid.

At INDITEC we understand that positive management of waste decreases the consumption of natural resources by encouraging recycling and recovery of degraded areas

Construction and Operation of an RCD's tank and Treatment Plant in the Municipality of El Molar, Madrid.

## Waste

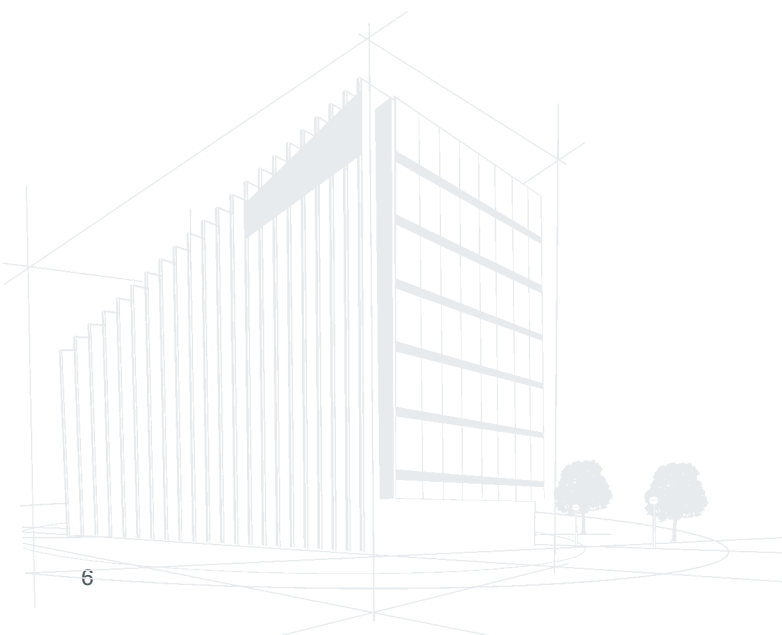

The provision of MSW collection services and street cleaning **are just some of the activities that INDITEC develops** in the field of Waste.

The design, construction and operation of treatment plants **of different types of waste (MSW, packaging, RCD 's), landfills, transfer stations and recycling centres, along with installation and maintenance of underground containers and soil decontamination complete the list of activities that we offer in this field.**

In all cases, we believe that positive management of waste will reduce consumption of natural resources, promoting recycling and the recovery of degraded areas.

### Featured works and services

- Construction of Waste Collection Centre in Alcorcón, Madrid
- Construction and Installation of a Clean point in Casarrubuelos Point, Madrid.
- Construction of a Recycling in Torrejón de la Calzada, Madrid.
- Construction of a Recycling Point, Cercedilla Madrid.
- Urban Waste Transfer Plant in El Casar, Guadalajara.
- Construction and Operation of an RCD tank and Treatment Plant in the Municipality of El Molar, Madrid.
- Plant, Domestic Fixtures and Rubble Collection Service in the City Centre and Housing Developments in Torrejón del Rey, Guadalajara.
- Street cleaning and Street Collection of Household fittings in El Casar, Guadalajara.
- Sealing and Restoration of Municipal Landfills of inert waste in Bustarviejo and La Serna del Monte, Madrid.
- Sealing and Restoration of Municipal Landfill of Inert Waste Cercedilla, Madrid.
- Widening of the treatment lines of the "Ecoparque" in Mirabel, Cáceres.

Sealing and Restoration of Municipal Landfill of Inert Waste in Bustarviejo, Madrid.

Street cleaning and Street Collection of Household fittings from the Public Highway in El Casar, Guadalajara.

## Rural environment

In the Rural Environment INDITEC performs land consolidation projects, **builds nature trails and greenways**, manages **natural areas** and executes the infrastructure required: livestock, irrigation, etc.

All projects are carried out taking into account the impact of possible actions in the present and future rural area promoting local employment and securing the population in rural areas.

### Featured works and services

- Conditioning of the disused railway line Santander-Mediterranean (Section Santelices- La Engaña Tunnel) for use as a Natural Path “ Merindades Greenway” Burgos.
- Extension of the Nature Trail “Las Vegas del Guadiana” in two sections, in the municipalities of Villanueva de la Serena ( Villanueva Section) and Navavillar of Pela (Balsa de Hitos section), Badajoz.
- Rural infrastructure and distribution network of sector IV, Adaja, Ávila.
- Basic infrastructure in land consolidation area “Palacios Rubios” in Nava de Arévalo, Ávila.
- Recovery of the “Cerro Calderico” in Consuegra, Toledo.

Environmental restoration of the banks of the Béjar, Salamanca

Execution of playgrounds in the South Ensanche of Alcorcón, Madrid.

Construction of Public Park “La Vaguada” in Simancas, Valladolid.

## Environmental Facilities

INDITEC handles the creation and provision of recreational areas, nature trails and interpretive centres and the installation of urban furniture and children’s areas in urban environments.

In all cases, INDITEC, seeks that the unit is fully integrated into the landscape around it, based on the functionality of the facilities made available to the public.

In all cases, INDITEC, seeks that the unit is fully integrated into the landscape around it, based on the functionality of the facilities made available to the public

### Featured works and services

- Construction of 2 wooden walkways and different equipment in the “Vallejo” Park of Alovera, Guadalajara.
- Conditioning spaces free space in C/ Olmo, C/ Parla and Avenida Unión Europea in Humanes, Madrid.
- Construction of Public Park “La Vaguada” in Simancas, Valladolid.
- Recovery of traditional paths, tracks and leeways in Calpe, Alicante.
- Execution of playgrounds in the South Ensanche of Alcorcón, Madrid.
- Cycle lane in Villamayor Armuña, Salamanca.

Landscaping of the free space “Los Almendros” Park in Humanes Madrid.

## Forestry

In the field of forestry, INDITEC is involved in reforestation and afforestation, silvicultural treatments, use of biomass, and fire prevention and the provision of infrastructure (tracks, firewalls, etc.).

The reforestation and afforestation using more inclusive techniques, allowing erosion to be stopped, increase the capacity of the soil to hold water and to fix a large amount of oxygen.

Different silvicultural contribute significantly to the health of our forests while reducing the risk of fire.

With the use of biomass not only is the amount of waste generated reduced, but we get clean and renewable energy.

### Featured works and services

- Phytosanitary and pruning campaign in the Pinewood of “Valdonaire Industrial Park” in Humanes, Madrid.
- Environmental restoration of the “Ladera Umbria” Bejar and the route of the “Factories” in Béjar, Salamanca.
- Reforestation in the Woodlands of Public Benefit no. 197 “Los Almorchones” and no. 24 “Pinar de la Barranca” in Navacerrada, Madrid.
- Basic maintenance of Forest Park “Valdebebas”, Madrid.
- Forest plantations in the area A-3 “Bosquesur” in Getafe, Madrid.
- Basic infrastructure in Valdebebas Forest Park, Zona Oeste, Madrid.
- Adaptation and Improvement of the “Boscolo” Park in the “Mas del Rosario” neighbourhood in Paterna, Valencia.

Basic maintenance of “Valdebebas” Forest Park, Madrid.

Reforestation in the Woodlands of Public Benefit no. 197 “Los Almorchones” and no. 24 “Pinar de la Barranca” in Navacerrada, Madrid.

Embankment protection works in the Aguas Blancas beach in Ibiza, Balearic.

Restoration and Adequacy of the margins of the Arroyo de las Mochas in Alovera, Guadalajara.

## Hydrology

In this field, we deal with watershed restoration, channelling work and protecting river banks, construction of dams and gauging stations, **maintenance of dams and water networks and works to improve the quality of the waters.**

Environmental restoration of our rivers, along with proper hydraulic operation, while ensuring protection against floods, will make the recovery of currently endangered ecosystems possible.

To improve the water quality, design and implementation we execute works involving capture and pumping, impulsion, Drinking Water Plants, header tanks, piping, etc.

INDITEC employs the latest techniques in Bioengineering to minimize potential impacts on an environment such as our rivers.

### Featured works and services

- Cleaning and refurbishment of two sections of “Arroyo de La Fuente” or “Valcaliente” Municipal area of Numancia de la Sagra, Toledo.
- Services for maintenance and conservation of Dams “El Bayco”, “El Boquerón”, “Los Charcos”, “José Bautista”, “Moratalla”, “La Risca” and “Los Rodeos”, miscellaneous municipal areas (Albacete and Murcia).
- Restoration and Adaptation of the margins of the Arroyo de las Mochas when passing through the Residential Park in the Municipal area of Alovera, Guadalajara.
- Restoration of the left bank of the River “Trueba” in the suburban environment of Medina de Pomar, Burgos.
- Adequacy of the margins and banks of the River “Oca” in the Urban Area and suburban environment Oña, Burgos.
- Adequacy of the Banks of the River “Manzanares” in Munilla, La Rioja.
- Adaptation and socio-environmental integration of the “Barranco de los Alamos.” Municipal area of Nerpio, Albacete.
- Conditioning, environmental restoration and revegetation of the “Rambla Las Matildes” in the El Beal hamlet. Municipal area of Cartagena, Murcia.
- Embankment protection works in the “Playa de Aguas Blancas” in Ibiza, Balears.
- Adequacy of the banks of the River “Pisuerga” and the embankments in Simancas, Valladolid.

Services for maintenance and conservation of the “El Bayco”, “El Boquerón”, “Los Charcos”, “José Bautista”, “Moratalla,” “Moratalla”, “La Risca” and “Los Rodeos” Dams, miscellaneous municipal areas (Albacete and Murcia).

Environmental restoration of our rivers, along with proper hydraulic operation, while ensuring protection against floods, making the recovery of currently endangered ecosystems possible
